CABLE PREPARATION TOOLS

MILLER®

UtilityTool™

Ripley tools are manufactured and sold under these well-known brand names: **Cablematic®**, **Miller®**, and **UtilityTool™**.

 **C1**

Cablematic® offers quality cable preparation tools for the CATV, Telecommunications, Wireless, Satellite, and Home Integration/ Security industries. Cablematic tools prepare trunk and distribution cables in addition to drop and messengered cables. The Cablematic product line includes coring and stripping tools, drop cable trimmers and compression and crimp tools for all kinds of drop and messengered cables and associated connectors.

 **M73**

Durability, dependability and accuracy in application are the hallmark of the Miller® brand. Miller offers a wide variety of specialty cable preparation tools for the Voice/Data, Fiber Optic and Telecommunications industries. Always innovative, these tools are designed with the professional in mind. Ease of application coupled with superior results has made Miller tools the top choice manufactured to our unparalleled quality standards.

 **U131**

UtilityTool™ manufactures cable preparation tools to splice and terminate cable for the Power Transmission and Distribution industry and electrical construction and maintenance. All tools are designed and manufactured to meet specific cable application needs, including accurate removal of insulation, semi-conductive sheathing, protective jacketing and other materials to produce consistent, uniform preparation of cable ends for splicing and termination.
